

Thank you for downloading the LifeCare Clinic Asset ! Here's what you need to know: Ready to Use: All textures and materials are included. Simply drag and drop the model into your Unity project, and it's ready to go. Customizable Features: The clinic building is fully completed, but elevators and similar features have not been added. We've intentionally left the high areas on the building side empty, allowing you the flexibility to add your own elements as per your project's needs. Your Feedback Matters: We would greatly appreciate it if you could rate our LifeCare Clinic asset on the Unity Asset Store. Your feedback helps us grow and improve! Free for Everyone: As a gesture of goodwill to the Unity community, this model is provided to you completely free of charge.
